

NEW DEADLINE CALL FOR TRACKS

JULY 30TH, 2024

Dear colleagues and friends,

Following a very successful conference in 2023 in Stockholm, Spain will host the **2nd International Conference on Gastronomy** that will take place under the name “**Reframing Gastronomy**”. The event, organized by the **Royal Academy of Gastronomy of Spain** in collaboration with the **CEU University Institute “Food and Society”**, will take place on 21-23 November 2024, in the **facilities of the CEU San Pablo University, Madrid**.

The conference organizers are now looking for **TRACK PROPOSALS** and I would like to encourage each of you to share information on track registration with the contacts you may have with the academic community in your respective cities/countries. And, of course, you may also propose tracks yourself!

You may find the details here:

<https://spaingastronomyconference.com/conference-organization/>

As the 2024 Conference Chair, we look forward to seeing you in **Madrid on 21-23 November 2024**, all those interested in Gastronomy, from a holistic point of view. It's worth it, welcome with the open arms that Madrid always receives!

Thanks in advance, best regards,

Gregorio Varela-Moreiras
SPAIN GASTRONOMY Conference 2024, Chair
Director, CEU University Institute on “Food and Society”
